**Registration now open**

**Monday, March 17 until Friday, April 11, 2025**

CampFIRE Niagara is a joint initiative that will help inspire and empower the next generation of firefighters while contributing to increased diversity in the fire service and across our Region

Niagara Regional Fire Chiefs are organizing a three-day event called CampFIRE (Fueling Inspiration Resilience and Empowerment), designed to give female high school students hands-on experience, mentorship, and insight into a career in the fire service.

This program not only introduces participants to the physical and technical aspects of firefighting but also encourages them to explore their potential, build confidence and see themselves in roles traditionally underrepresented by women. The event will run May 29, 30 and 31, 2025 in Niagara Falls, and is free to selected participants.
