# What Is Simbotics

Team 1114 – Simbotics, from Governor Simcoe Secondary School in St. Catharines, Ontario, competes in the FIRST Robotics Competition (FRC). We are made up of 30 high-school aged students and 15 industry professional mentors. Simbotics was founded in 2003, achieving success through our 56 Blue Banners, 2008 World Championship, and our 2012 induction to the FIRST Hall of Fame. We have worked with over a thousand elementary students through running LEGO robotics workshops and hosting robotics competitions.
